Artwork Requirements

Adobe Illustrator CS6 (AI, EPS, PDF, SVG) - MUST convert all fonts and stroke-weights to outline. Artwork should be supplied in vector format. ALL RASTER objects in artwork must be appropriate resolution. If not, it may require artwork changes and additional charges.

Adobe Photoshop CS6 (PSD, PSB, TIF, JPG) - MUST rasterize your fonts and save files as .psd (if you have layers or need transparency). Image resolution should be at 150 dpi at 100% actual size artwork is to be printed or 300 dpi at 50% the actual printed size.

- All fonts and strokes need to be converted to outlines.
- Minimum stroke weight is 3pt. Minimum font height is 1/8".
- All art intended for silkscreen needs to be vector.
- Silkscreen production should use Pantone solid coated colors only.
- We cannot print the following Pantone colors in any way: PMS 801 – PMS 814.
- We cannot digitally print Metallic Pantone colors.
- Digital artwork will be output as CMYK. However, any colors that need to match a specified color need to be called out as a Pantone solid coated number.
- Raster images and effects will be printed in CMYK.
- Remove any overprint or transparency effects.
- RGB-colored art needs to be converted to CMYK prior to submission.
- All linked files need to be embedded.
- Digitally printed fabric colors may not exactly match dyed fabric colors.
- Half-toned colors will be output at 20 LPI (lines per inch for silkscreen production).
- For digital printing, black colors need to be changed to the CMYK value 0,0,0,100
- All graphics are subject to review and approval before production.
- Artwork should be sharp, clean, smooth and free of jagged lines/shapes.
- Elaborate artwork may require additional cleanup charges.
- Send artwork early to avoid production delays
- Large files (over 10 MB) can be submitted via Dropbox, Yousendit, Google Drive, or other by other similar services. Please send files to jeff@customshelters.ca
